

# Exception

## **What is Required Academic Pause Exception?**

When a student who is on required academic pause completes three (3) or more units and earns a GPA of 2.0 or higher for the current semester (for purposes of this exception, "Pass" is calculated as a "C" grade for the current semester only), the student will be automatically permitted to re-enroll for each additional semester in which he/she satisfies the exception criteria or until the student returns to academic good standing. During the exception period, the student will retain the required academic pause exception status and may be subject to unit, course, and/or other conditions deemed appropriate by the office of the Dean of Student Affairs.

## **What is Required Progress Pause Exception?**

When a student who is on required progress pause completes more than 50% of the units taken during the current semester with a recorded letter grade and has completed a minimum of three (3) units, the student will be automatically permitted to re-enroll for each additional semester in which he/she satisfies the exception criteria, or until the student returns to progress good standing. During the exception period, the student will retain the required progress pause exception status and may be subject to unit, course, and/or other conditions deemed appropriate by the office of the Dean of Student Affairs.
